August 20, 2018

Dear Fellow Town Resident:

The Town of Halfmoon is partnering with the Saratoga County Soil and Water Conservation District to support a program that offers grant funding for homeowners to replace or repair a failing or reasonably likely to fail septic system. You are receiving this letter and enclosed packet because you have been identified as residing in an area of Town that may fit within this project's grant funding.

You will need to review the packet of information provided to you very carefully. If you meet the program criteria and choose to participate, New York State will provide funds to reimburse eligible homeowners for a portion of the cost of replacing failing septic systems with more environmentally effective systems. There is a limited amount of money available for this program, so it is best to get started on this process forthright, if you are interested. The Town will assist you as much as possible throughout the process.

The grant program allows eligible owners to be reimbursed up to fifty percent (50%) of the eligible costs, but cannot reimburse you more than ten thousand dollars (\$10,000).

Due to the specific grant initiatives and eligibility requirements, the program will be administered by Saratoga County Soil and Water Conservation District. It is best that you call their direct contact number of 518-885-6900 with any questions.

With best wishes.

Very truly yours,

Kevin J. Tollisen
Town Supervisor
