

APPENDIX D: Mitigation Strategies

This appendix provides a comprehensive list of the mitigation actions from the previous hazard mitigation plan that were considered by Saratoga County and participating jurisdictions. For this plan update, the county and jurisdictions reviewed these actions and reported on the project status and the progress on implementation. Information, where provided, has been captured in this appendix.

Some jurisdictions did not provide updates on their mitigation actions. These mitigation actions are listed in the table below and all other fields are blank. If this information is provided at a future date, it will be incorporated into the table below.

Table D-1: Status of Mitigation Actions

Jurisdiction	Initiative #	Project Status	Description of Implementation	Include in 2019 Update?	Required Changes
Saratoga County	SC-1	In progress	1. County Sewer Pumps Raised. 2.Back-up power established at Public Health building. 3. IT has relocated computer systems to centralized location.	Yes	
Saratoga County	SC-2	In progress	Saratoga County has worked with FEMA to identify repetitive loss properties.	Yes	
Saratoga County	SC-3	Not started	As a part of the 2018 Hazard Mitigation Plan update, the County has received new information on this program. We will look to impliment in the future.	Yes	
Saratoga County	SC-4	In progress	2019 update to entire plan.	Yes	
Saratoga County	SC-5	In progress	Ongoing.	Yes	

Multi-Jurisdictional Hazard Mitigation Plan

Saratoga County, New York

January 2, 2019

Jurisdiction	Initiative #	Project Status	Description of Implementation	Include in 2019 Update?	Required Changes
Saratoga County	SC-6	In progress	County's Comprehensive Emergency Management Plan (CEMP) Updated yearly. Have added several new annexes in the last 2 years. Created Tactical Interoperable Communications Plan (TICP).	Yes	
Saratoga County	SC-7	In progress	Flood mapping is shared with the municipalities.	Yes	
Saratoga County	SC-8	In progress	Most County buildings, including the Sheriff's Office and Jail, and all 911 radio communication towers have back up power.	Yes	
Saratoga County	SC-9	In progress	Existing EOC has had several technological upgrades, including the addition of fiber. The County is constantly researching ways to update the EOC.	Yes

Saratoga County, New York

January 2, 2019

Jurisdiction	Initiative #	Project Status	Description of Implementation	Include in 2019 Update?	Required Changes
Town of Ballston	TB-8	Completed	Town has tied into the Saratoga County Water Authority supply from Northeast corner of town (Eastline, and Rt 67).	Yes	Confer with Joe Whalen....Water / Highway Superintendent
Town of Ballston	TB-9	Completed	Back-up power supply for the pump station installed on Eastline Rd pumping Station. Procured with local funds. Generator Procured and installed - 2017 - Town Funds - Grant application denied because County Mit, and Emergency Mangement plans were out of date, and out of compliance.	Yes	Confer with Joe Whalen....Water / Highway Superintendent
Town of Ballston	TB-10	In progress	High Priority Mitigation Project, identified, and re- written Re-Written in the New DHSES Worksheet - 12/05/2018. Presented in a formal multi agency FEMA Resiliency Workshop 12/05/2018, Malta, NY.	Yes	Upadated as a new high priority project (See DHSES) Worksheet)

Multi-Jurisdictional Hazard Mitigation Plan

Saratoga County, New York

January 2, 2019

Jurisdiction	Initiative #	Project Status	Description of Implementation	Include in 2019 Update?	Required Changes
Town of Ballston	TB-11	In progress	Town is adopting new zoning (2019) which offers the option for PDR's, and encourages Conservation Sundivisions. ToB LEMC, and Farmland Preservation and Protection Committee (FPPC) have established and Executive Steering Committee, to plan and jointly sponsor a Rural / Agricultural drill and expercise for 2019 with Public Safety Organizations, community stakeholders (Farming community), CART team.	Yes	Direct coordination for planning with Saratoga County OES will be needed in early 2019, to establish goals, and the venue for the exercise. Funding support will be needed to design and coordinate HSEEP compliant exercise.
Town of Ballston	TB-12	In progress	Riparian "best Practices" being adopted in New Zonnig (pending adoption 2018, or early 2019). Workplans being developed between Building Department and ToB LEMC to coordinate and share GIS information system data to prioritize sensitive areas, and assess impacts of proposed new projects within 100' riparian buffer corridors.	Yes	Yes; Need to collect Baseline data and inventory of currently existing conditions, for future change detection. Should be done in conjunction with Mitigation action #2, Flood map / drainage study.

Multi-Jurisdictional Hazard Mitigation Plan

Saratoga County, New York

January 2, 2019

Jurisdiction	Initiative #	Project Status	Description of Implementation	Include in 2019 Update?	Required Changes
Town of Ballston	TB-13	In progress	MS4 Program currently managed by planner in Building Department. Workplans being developed between Building Department and ToB LEMC to coordinate and share GIS information, and systems for information management for program compliance, permitting, and enforcement. MS4 Geodatabases (GIS) can benefit hazard assessments, and risk analysis. Increased collaboration efforts should be made to sharing information and data between departments, and committees at the local level, and shared at the County (i.e. Planning Department) and eventually shared with County OES, as they establish information management systems (i.e. GIS).	Yes	MS4 Program currently managed by planner in Building Department. Establish GIS and information management system, leveraging off of the ToB LEMC's Online GIS system to collect, assemble, and manage MS4 information and data. Extend these capabilities to Town Highway, and Water department, as well.

Jurisdiction	Initiative #	Project Status	Description of Implementation	Include in 2019 Update?	Required Changes
Town of Ballston	TB-14	In progress	ToB LEMC has reached out and works closely with local Public Safety organizations (EMS, Fire). Preliminary of need assessments have been addressed, and joint planning sessions, training, and tabletops (TTX's) have been conducted (2017, 2018).	Yes	A formal and funded needs assessment should be conducted town-wide, and regionally (adjoining Fire EMS Districts and Towns), jointly with Public Safety agencies including Sheriff's Office and ToB LEMC.

Jurisdiction	Initiative #	Project Status	Description of Implementation	Include in 2019 Update?	Required Changes
Town of Ballston	TB-15	In progress	Cooperation and inputs from public safety organizations, town government, citizens and stakeholders (i.e. BLIA) will be welcome to support these initiatives.	Yes	Change the State paradigm of unfunded mandates as increased burdens on local municipal governments rise (i.e. writing Emergency Operations Plans, Contributing to Hazard Mitigation Plans, Conducting Drills, HSEEP excersises); Town of Ballston LEMC should continue to be a leader to change the paradigm in New Your State to allow local governments to apply for and receive a protion of FEMA \$funding that filters through NYS (DHSES) grants and to the County. Continue to encourage volunteer efforts at the local level to accomplish this critical work, but understand, some ambitious goals are currently unsustainable without support, and funding. Continuue to develop Mutual Aid /shared services agreements with adjoining communities, and neighboring municipal committees. (STATE IMAP).

Multi-Jurisdictional Hazard Mitigation Plan

Saratoga County, New York

January 2, 2019

Jurisdiction	Initiative #	Project Status	Description of Implementation	Include in 2019 Update?	Required Changes
Town of Ballston	TB-16	In progress	Cooperation and inputs from public safety organizations, town government, citizens and stakeholders (i.e. BLIA) will be welcome to support these initiatives. Seek clear sources for \$funding to enhance community readiness and response through continued efforts lead by ToB LEMC allocated for community resiliency, that complies with the <i>National Mitigation Framework</i>	Yes	Seek funding to hire a consultant to scale the advanced interfaces and information managment ssystems that the ToB LEMC has established. Continue to advanced the use cloud based information systems for all phases of Emergency Management, beyond mitigation planning. Scale and expand these systems through shared service agreements with County Planning Department, and other local municipalities to sowftware licensing, an.. Integrate these technologies with County systems (i.e. 911, Notification systems, (Code Red, I AM Responding).
Town of Ballston	TB-17	Canceled	No Regulated Dam structures in and regulated streams.	No

January 2, 2019

Jurisdiction	Initiative #	Project Status	Description of Implementation	Include in 2019 Update?	Required Changes
Town of Ballston	TB-18	In progress	County level Responsibility - Code Red - Need Training / Testing. ToB has procured 4 Mobile Radios on compliant with County 800MHz Emergency Communications Plan. It initial testing completed during Town of Milton Emergency Evacuation, and Sheltering Drill, October 6, 2018.	Yes	System should be tested through joint exercises with local public safety organizations, and the County OES who is the system administrator, through \$funded training, exercises and drills held jointly with the "whole community", including GO, and Non-GO stakeholders, and the business community. Additional training required on 800 MHz (P25) County
Town of Ballston	TB-19	In progress	Town established Local Emergency Management Committee, 2015 to address local Emergency Management Plan, using all hazards, including mitigation and community resiliency. LEMC Recieved a nominal grant in 2016 (SALS Library system), and LEMC currently receives allocated funding from Local (Town) budget. Update to Emergency Management Plan, 2016 and annual updates and hazard assessment continual basis. Advanced GIS system developed for all hazards assessment, and operational response.	Yes	Yes; Seek immediate PDM, HMGP and, critical infrastructure grants directly, and request a portion of PDM, HMGP, and EMPG funds that the County OEM receives. Seek other funding like LGRMIF (State Education) to enhance information management systems, and GIS. Additional funding needed to assist with training committee members and department staff on ICS and the use of these cloud based systems for continued hazards assessment, and operational response (i.e. at the Town's EOC - Municipal Center).

Multi-Jurisdictional Hazard Mitigation Plan

Saratoga County, New York

January 2, 2019

Jurisdiction	Initiative #	Project Status	Description of Implementation	Include in 2019 Update?	Required Changes
City of Saratoga Springs	CSS-3	In progress	City serves on the Saratoga County LEPC and Saratoga County Emergency Planning Coalition and counts itself as a partner to the Saratoga OES efforts for Hazard Mitigation Planning.	Yes	None
City of Saratoga Springs	CSS-4	In progress	City continues to promote education and enforce regulatory guidelines for the National Flood Insurance Program	Yes	None
City of Saratoga Springs	CSS-5	In progress	City continues to develop, enhance, implement and educate its community on the existing emergency management planning.	Yes	None
City of Saratoga Springs	CSS-6	In progress	City continues to partner with Saratoga OES to promote interoperability and continuity of operations.	Yes	None
City of Saratoga Springs	CSS-7	In progress	City continues to partner with Saratoga OES to promote interoperability and continuity of operations.	Yes	None

Multi-Jurisdictional Hazard Mitigation Plan

Saratoga County, New York

January 2, 2019

Jurisdiction	Initiative #	Project Status	Description of Implementation	Include in 2019 Update?	Required Changes
City of Saratoga Springs	CSS-8	In progress	City continues to update and increase the City's MS4 Stormwater Management System and its Planning in accordance with NYS DEC and the EPA.	Yes	None
City of Saratoga Springs	CSS-9	Completed	City has an approved MS4 Stormwater Management Program that is ongoing in its education and compliance initiatives	Yes	None
City of Saratoga Springs	CSS-10	Not started	This is a cost prohibitive issue within the City given the topography of the region and the complexity of the current infrastructure. It is not supported by the power and telephone utilities. Underground cable installation is set to occur comprehensively throughout the City in the future.	Yes	Lead support agency for new cable internet will be SiFi Networks within City limits on a move forward basis per the contractual agreement signed with the City.
City of Saratoga Springs	CSS-11	In progress	City has expended capital funds for a new radio tower and new dispatch center that is redundant to Saratoga OES services and increases the interoperability between all agencies.	Yes	Project scheduled for completion by January 1, 2019 but efforts will continue to enhance interoperability between all agencies.

Multi-Jurisdictional Hazard Mitigation Plan

Jurisdiction	Initiative #	Project Status	Description of Implementation	Include in 2019 Update?	Required Changes
City of Saratoga Springs	CSS-12	Completed	Generator in place and tested regularly for operational efficiency.	No	Project is complete.
City of Saratoga Springs	CSS-13	In progress	Hazardous Waste Mitigation efforts are ongoing in coordination with County DPW, but annual community wide effort occurs with NYS funding to facilitate compliance	Yes	None
City of Saratoga Springs	CSS-14	In progress	City continues to manage and facilitate MS4 Stormwater Management Programming for the public and private sector	Yes	None
City of Saratoga Springs	CSS-15	In progress	City is currently participating with the Capital District Transportation Committee to GIS ADA compliance programming for public and private infrastructure in addition to utility and transportation initiatives.	Yes	Identify grants as funding sources.
City of Saratoga Springs	CSS-16	In progress	City continues to manage and facilitate educational programming for Building Code Compliance.	Yes	Identify grants as funding sources.

Multi-Jurisdictional Hazard Mitigation Plan

Saratoga County, New York

January 2, 2019

Jurisdiction	Initiative #	Project Status	Description of Implementation	Include in 2019 Update?	Required Changes
City of Saratoga Springs	CSS-17	In progress	City has a Tree Management Program and partners with community organizations to promote healthy tree mitigation efforts.	Yes	Identify grants as funding sources.
City of Saratoga Springs	CSS-18	Completed	Emergency Action Plan completed and approved by City Council in 2016. Education is ongoing.	Yes	Continue to monitor and manage emergency action plan updates as necessary.
City of Saratoga Springs	CSS-19	In progress	City has budgeted capital monies for engineering and permits working with the NYS DEC and NYS DOT. Hazard Class of Loughberry Lake Dam has increased from B to C	Yes	Identify grants as funding sources.
City of Saratoga Springs	CSS-20	In progress	Continually education and enrollment in community emergency notification system via Nixle and Reverse 911	Yes	None
City of Saratoga Springs	CSS-21	Not started	This project requires the support of federal agencies for funding which is negligible and unfeasible at this time. Replenishment at a local, state and federal level is negligible.	No	None
