**DIRECTOR OF ENVIRONMENTAL HEALTH SERVICES**  
**SARATOGA COUNTY DEPARTMENT OF PUBLIC HEALTH**

**SALARY: \$95,472 \*\*\* Plus Excellent Benefit and Retirement Package\*\*\***

***Distinguishing Features of this opportunity are...***

This is an administrative position in the Saratoga County Department of Public Health. As Director of Environmental Health Services in a municipal public health department, the work is of a professional, environmental health nature involving responsibilities of a high order in relation to planning, directing, and supervising the environmental health program. The work entails furnishing advice and guidance to local officials and the general public regarding environmental health problems and the measures necessary for improvements and compliance with legal requirements; in providing leadership in promotion of public health through application of environmental health practices; enforcement of the provisions of the Public Health Law and local and State Sanitary Codes in relation to environmental health matters. Work entails the administration and direction of the whole environmental health section or division. Work is performed under the general supervision of the Commissioner of Health with considerable leeway allowed for the exercise of independent judgment. Direct supervision may be exercised over environmental health staff. The incumbent does related work as required.

This opportunity is offered at a salary of \$95,472 and comes with an excellent Benefit and Retirement package.

***Typical work activities will include, but are not limited to...***

- Directs the promotion of environmental health through the application of public health and environmental health principles and the enforcement of the provisions of the Public Health Law, New York State Sanitary Code and Saratoga County regulations in relation to environmental health;
- Plans, supervises, and participates in a variety of environmental health program activities, including all State mandated programs, to ensure compliance with applicable standards of public health and safety;

## Director of Environmental Health Services – P2

- Furnishes advice and guidance to local officials and the general public regarding public health and environmental health and implements measures necessary for improvement and compliance with legal requirements;
- Prepares and monitors division budget and approves payment of bills and vouchers;
- Prepares and reviews division reports, State Aid reimbursement reports, and reports to State agencies concerning environmental health programs;
- Formulates and directs programs for training of water plant operators, environmental health personnel, food handlers, restaurant proprietors, camp owners, and other classes of operating personnel;
- Guides investigations of environmental health factors related to disease outbreaks;
- Supervises personnel in the environmental unit and consults and advises activities relating to sanitary control of food;
- Represents the Department on matters and problems related to environmental health;
- Formulates public health and environmental health policies;
- Confers with appropriate officials relative to public health problems in the operation of sanitary landfills, public water supplies, wastewater disposal, air pollution and hazardous waste disposal;
- Reviews and approves plans for water supply, sewage disposal, realty subdivision, swimming pools and beaches, hotels, motels, and food service establishments;
- Cooperates and interacts with State and Federal agencies whose work or policies affect public health programs.

*\*Typical Work Activities are intended only as illustrations of possible types of work that might be appropriately assigned to an incumbent of this title. Work activities that do not appear above are not excluded as appropriate work assignments, as long as they can be reasonably understood to be within the logical limits of the job.*

### ***Desirable knowledge, skills and abilities are...***

· A Comprehensive knowledge of the principles, techniques, practices and administration of public health engineering and environmental health programs as related to air pollution, water supplies and purification, sewerage and sewage disposal, stream pollution, sanitary control of milk and other foods, sanitary control of restaurants and public eating places, smoke abatement, sanitary control of camps, hotels, lodging houses, boarding houses, swimming pools, bathing beaches, schools and other places, insect and rodent control, housing, public health nuisances and general sanitation. A thorough knowledge of provisions of Public Health Law and State Sanitary Code related to above subjects. Incumbent must also possess the ability to plan, develop, direct and administer public health engineering and environmental health programs and to project and integrate these into the departmental program. The ability to prepare and present complex technical reports and correspondence is required. Incumbent must possess the initiative and resourcefulness to solve difficult environmental health problems. Finally, the ability to effectively deal with public and other officials and exercise professional judgement is a regular requirement of this position.

Director of Environmental Health Services – P3

***The Preferred minimum qualifications for this position are...***

A Bachelor's degree from a regionally accredited, or NYS registered college or university, in Sanitary, Environmental, Chemical, Civil or Public Health Engineering (or a related natural science engineering field), **AND** three (3) years of experience that must have included at least two (2) years of administrative and supervisory responsibilities as a Supervising Engineer or Supervising Sanitarian; **OR** five (5) years of environmental health experience that included two (2) years of supervisory responsibilities that demonstrates the candidate has the technical and administrative skills necessary to manage programs that can anticipate, recognize and respond to environmental health challenges.

**NOTE:** A Master's Degree in Public or Environmental Health, or a field that demonstrates the five core competencies of a public health education (Biostatistics, Environmental Health Services, Epidemiology, Health Policy and Management and Social and Behavior Sciences) may be substituted for up to two (2) years of the required environmental health experience.
