So don't think anybody here is a stranger to that process that we began in 2021. And we're moving as aggressively as possible, but also keeping in mind that we need to continue to maintain close contact with New York State. Their support and assistance through this transition is extremely important. And we've been saying all along there's a number of jobs that will need to be created as the county takes on the additional environmental health responsibilities. Over time. These positions will need to be filled, training accomplished. And first and foremost, getting our leadership team in place is, is our top priority. Most recently in 2011, the population threshold for an additional supervisor was raised to 25,000 as a result of the 2020 county wide federal census and amendment is necessary to maintain the existing number of supervisors. county budget to increase revenue and appropriations by \$12 million to cover additional revenue distribution costs in accordance with the sales tax formula. Budget impact, the additional sales tax distribution costs will be covered by recognizing \$12 million dollars in unbudgeted sales tax revenue. Budget impact, these funds have been included in the recommended ARPA infrastructure expenditures list for the County's long range Capital Planning Committee and will be taken from the 22 million county ARPA fund payment scheduled to be received in June 22.
