PROCUREMENT CARD POLICY

Chapter: 2	Title: Procurement Card Policy	Adoption:
Section: O	Resolution:	
Sponsoring Department: Purchasing		

- I. Purpose: The Procurement Card is a simplified and cost-effective method of purchasing and remitting payment for approved expenditures. The Procurement Card is **not** intended to avoid or bypass appropriate purchasing procedures but is to be used in accordance with the guidelines established by the Saratoga County Board of Supervisors as detailed in this policy. The Procurement Card can be used for retail purchases, mailed, telephoned, internet or faxed orders. This policy/procedure provides the guidelines under which an employee may utilize their Procurement Card.

- II. Applicability: All Procurement Cards are issued at the request of the Department Head and card usage will be audited and can be restricted and/or rescinded at any time. Only the person listed on the card is authorized to use the card and it is only to be used for authorized county purchases. This policy should be read in conjunction with all County Procedures and Policies but specifically the Purchasing Procedures Policy (Chapter 2, Section C) and the Regulations on Contracts and Spending (Chapter 2, Section H). To the extent that this policy is interpreted to be in conflict with either the Purchasing Procedures Policy or the Regulations on Contracts and Spending, the Purchasing Procedures Policy and Regulations on Contracts and Spending shall control.

- III. Procurement Card Uses:
 - a. Procurement Cards may be used for authorized purchases of services, supplies, materials or lodging, travel or conference registration through means including in-person, via telephone, mail, internet or fax (e.g., such as services, supplies, materials, lodging, travel, and conference registration). The Procurement Card will not be used for any prohibited transactions and should be used in conformity with current Saratoga County policies and purchasing guidelines. Authorizations for dollar limits are set up to the limits set by the Purchasing Policy, which may change from time to time.

- b. Use of a Procurement Card for personal purchases is strictly prohibited at all times and under all circumstances. The following shall be considered misuse of a Procurement Card:
 - i. Purchasing items for personal use;
 - ii. Failure or refusal to reconcile expenses, attach necessary receipts of failure to submit reconciliation to the Auditing Department by established deadlines;
 - iii. Using the Card for any items clearly defined as “Not for Card use”; or
 - iv. Allowing or permitting another person to use a Procurement Card issued to you.

IV. Cardholder Responsibilities:

- a. Cardholders are required to read and acknowledge the Card Receipt and Card Holder Agreement prior to being issued a Procurement Card.
- b. Cardholders are responsible for informing the vendors that the County of Saratoga is a municipal organization that is exempt from sales tax. When using your card in person if a vendor will not process the transaction as tax exempt do not complete the transaction. If you are assessed sales tax on phone, Internet or mail orders the tax is to be adjusted on your statement before processing for approvals. If the credit does not get applied until the next monthly statement, the cardholder must note on the submission to Auditing that credit has been requested and will be on the next statement.
- c. If the purchase is for a service, the necessary contract and insurance information must be on file before the transaction can be processed. Purchases of products only without a contract generally do not require insurance.
- d. Refunds and exchanges must be credited directly back to the Procurement Card account. Under no circumstances shall cash be received for refunds or exchanges.
- e. If the Procurement Card is being used for the purchase of software or computer related items, approval from the Information Technology Department must be obtained in writing in advance.
- f. If the Procurement Card is being used to purchase a commodity (excluding travel, conference, and lodging) which is in excess of \$750.00 in value, approval from the Purchasing Department must be obtained along with the submission of a requisition request in the financial system.
- g. The Procurement Card should be treated with the same level of security as cardholders treat their own personal credit cards. Lost or stolen cards must be immediately reported to the card issuing company, Department Head and the County Administrator. Replacement of the Procurement Card must be authorized by the Department Head and the County Administrator.

- h. A monthly statement and transaction report is provided on-line for each account which is available on the first day of each calendar month. The Cardholder will be responsible for reconciliation of all receipts with the monthly detailed statement, attachment of all necessary receipts to the statement, and submission to the department head for approval. Following Department Head approval all documentation must be forwarded to the Auditing Department for payment by the 7th day of each calendar month.
- i. Separation of Employment: When a Cardholder leaves County employment they must return their Procurement Card to their Department Head. The Department Head is responsible for ensuring the card is returned and cancelled. The Department Head shall also notify the Program Administrator of the employee's notice of separation of employment or actual ending date. The Procurement Card shall be physically destroyed (cut in half) and returned to the Program Administrator. The Department Head is responsible for submitting the final statement for the Procurement Card to the Auditing Department with all receipts attached. If an employee is on extended leave or disability, the Department Head should contact the Program Administrator to have the card "suspended" until the Cardholder returns to work.

V. Procurement Card Controls:

- a. The Procurement Card is not intended to avoid or bypass appropriate purchasing procedures. Cardholders should be familiar with and frequently review the Purchasing Procedures Policy (Chapter 2, Section C) and the Regulations on Contracts and Spending (Chapter 2, Section H).
- b. All Procurement Card purchases will be audited to confirm the Procurement Cards are being utilized responsibly, receipts are being retained, and the Cardholder's statements are being reconciled on a timely basis. Such audits should occur on a semi-annual basis and include review by the Department Head, Auditors Office, and Purchasing Department to ensure compliance with all rules, regulations and laws.
- c. Card Limits: Each card will have a maximum amount that can be spent per transaction. The County Administrator will set the maximum dollar limit per transaction, generally, the limit will be set per the Purchasing Policy (\$750.00), but can vary depending upon department needs.
- d. Exclusions by Merchant Category Code (MCC): Specific vendors are excluded from use on all the County Procurement Cards. Any attempt to use these vendors will cause the card to be declined and will be reported to the Program Administrator. Examples of excluded vendors include:
 - i. Banks, ATM's, and Financial Institutions;

- ii. Liquor Stores;
- iii. Medical Services;
- iv. Restaurants, taverns and bars;
- v. Insurance Agencies;
- vi. Personal Service Providers (Dry cleaners, beauty salons, spas, etc.);
- vii. Amusement & Entertainment (golf courses, theaters, country clubs).

VI. Procurement Card Process:

a. Step 1 – Make a Purchase:

- i. Purchases can be made in person, over the telephone, by fax, or by mail by completing an order form or via the Internet. Documentation/receipts will be required for all purchases.
- ii. Make sure the vendor accepts procurement cards.
- iii. Identify yourself as a Saratoga County Employee.
- iv. Inform the vendor that you are making a tax-exempt purchase prior to completing the transaction. Each card should indicate tax exempt status.
- v. Make sure that the proper contract and insurance is on file if you are charging a service

b. Step 2 – Receive the Goods/Services

- i. Upon pick up or delivery of your goods, it is important to retain the receipt or packing list (if one is not provided you need to contact the vendor immediately for this documentation).
- ii. Every purchase made on the Procurement Card must be documented with a receipt, which could be in the form of a sales receipt, packing slip, and order form or registration application.
- iii. The cardholder needs to keep all receipts and charge slips for reconciliation of the statement.
- iv. All receipts must contain the following information:
 - 1. Merchant name; and
 - 2. Purchase date; and
 - 3. A description of each item purchased, including quantity; and
 - 4. Per item cost; and
 - 5. Total cost; and
 - 6. Cardholder name

- v. If the required information is not on the receipt provided by the vendor, the Cardholder is to handwrite it on the receipt prior to attaching it to the statement. If a receipt is lost and cannot be replaced by the vendor a copy can be secured from the card issuing company.
- vi. If an item has been ordered by mail that has not yet arrived and no receipt is available, this should be noted on the statement and a copy of the order form included if available, and the receipt forwarded to Audit as soon as it is received.

c. Step 3 – Verification of Goods Received:

- i. The Cardholder is responsible for working with the vendor to correct any problems, exchanges or credits.
- ii. You are responsible for locating any errors and reporting them to the card issuing company who may request complete details of the dispute in writing on county department letterhead in order to research the item in question.
- iii. If you believe the supplier has charged you incorrectly or there is an outstanding quality or service issue, you must first contact the supplier and try to resolve the matter directly with the vendor. If a credit or adjustment is due, be sure to highlight the line item on your copy of the monthly statement to verify receipt on your next monthly statement.
- iv. The card issuing company must receive any charge dispute within 60 days of your statement date. While pending resolution, the card issuing company will credit your account for the amount of the disputed transaction. Although the card issuing company acts as the arbitrator in any dispute, you should never assume that a dispute will be resolved in your favor.
- v. If the dispute is not resolved to your satisfaction, and you believe you have been unfairly treated by the supplier, please notify the Card Administrator with the relevant details.
- vi. Any fraudulent charges must be reported immediately to the 24-hour Customer Service Center and the County Administrator. Prompt reporting of any such charges will help to prevent the county from being held responsible.

d. Step 4 – Reallocate the Charges:

- i. All charges made against the Procurement card shall be assigned an account number by the cardholder. The Department Head is responsible for the review and verification that all transactions are charged to the correct account.
- ii. The Department Head shall confirm that all purchases are reasonable, authorized for departmental business, and that the transactions were not in violation of the Purchasing or Procurement Card policies.
- iii. The Department Head shall review and approve the Cardholder statements by signing and dating it and forwarding it to the Auditing Department.
- iv. Approved statements with the attached receipts are due in the Auditing Department by the 7th of each calendar month. Card billings will be closed on the last day of each month. On the second working day of each month the cardholders should reconcile their transactions, attach all receipts and secure Department Head approval. If the required reconciliation or information is not submitted in a timely manner, the card will be cancelled.

Part – 1 Project Information

Narrative description of the intent of the proposal

Pursuant to NYS Department of Agriculture and Markets Law Article 25-AA, section 303a, an 8-year review of the status of Saratoga County's Consolidated Agricultural District #2 (Ag. Dist. #2) by the Saratoga County Planning Board and the Saratoga County Agriculture and Farmland Protection Board to make recommendation to the Saratoga County Board of Supervisors to either continue, modify or terminate the agricultural district. The Saratoga County Consolidated Agricultural District #2 overlays within the municipal boundaries of the Towns of Ballston, Charlton, Clifton Park, Corinth, Edinburg, Galway, Greenfield, Hadley, Malta, Milton, Providence, and the City of Saratoga Springs.

The Saratoga County Planning Board (SCPB) and the Saratoga County Agriculture and Farmland Protection Board (SCAFB) has reviewed all materials submitted as part of the 303a 8-year review period for Agricultural District #2. The SCPB and SCAFB determined that the Saratoga County Consolidated Agricultural District #2 is established and operating as originally intended. Each municipality located within the district has and will continue to manage, promote and protect the district through local plans and laws. The SCPB and SCAFB recommend that the Saratoga County Consolidated Agricultural District #2 boundary map be modified to correctly correspond to the 2022 RPS parcel codes depicting participation in the Saratoga County Agricultural District #2 including four separate parcels requesting removal by the individual landowners as depicted in Table 1 (pg. 2) of the report. An extensive review was conducted by the Saratoga County Planning Department, Saratoga County Real Property Office as well as all municipal Assessors in Agricultural District #2 to correctly delineate the Agricultural District Boundary. All participating county departments, municipalities as well as the Agricultural Farmland Protection Board have agreed on the proposed modification as presented.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Pursuant to NYS Department of Agriculture and Markets Law Article 25-AA, section 303a, an 8-year review of the status of Saratoga County’s Consolidated Agricultural District #2.

The Saratoga County Planning Board (SCPB) and the Saratoga County Agriculture and Farmland Protection Board (SCAFB) has reviewed all materials submitted as part of the 303a 8 year review period for Agricultural District #2. The SCPB and SCAFB determined that the Saratoga County Consolidated Agricultural District #2 is established, and operating as originally intended. Each municipality located within the district has and will continue to manage, promote and protect the district through local plans and laws. The SCPB and SCAFB recommend that the Saratoga County Consolidated Agricultural District #2 boundary map be modified to correctly correspond to the 2022 RPS parcel codes depicting participation in the Saratoga County Agricultural District #2. An extensive review was conducted by the Saratoga County Planning Department, Saratoga County Real Property Office as well as all municipal Assessors in Agricultural District #2 to correctly delineate the Agricultural District Boundary. All participating county departments, municipalities as well as the Agricultural Farmland Protection Board have agreed on the proposed modification as presented.

There will be no change to the dynamics of the Saratoga County Agricultural District #2 as it is designed to protect and preserve the farming industry and its lands therefore, the proposed action poses little to no significant environmental impacts.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

While the project will have impacts on the natural environment, these impacts are not considered to be moderate or large. The construction of a small hangar facility is consistent with current airport use and allowable in this location. While tree clearing and removal of flora will occur, the footprint has been minimized to the maximum extent practical. The Karner blue butterfly is listed through the USFWS IPaC tool; however, this project will occur in an area of the airport that is exempt from being designated habitat per an existing agreement with NYSDEC and USFWS. The project has been designed to accommodate stormwater flows and best management practices will be utilized during construction and operation of the facility.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Dear Corinne Steinmuller:

Thank you for requesting the comments of the Office of Parks, Recreation and Historic Preservation (OPRHP). We have reviewed the project in accordance with the New York State Historic Preservation Act of 1980 (Section 14.09 of the New York Parks, Recreation and Historic Preservation Law). These comments are those of the OPRHP and relate only to Historic/Cultural resources. They do not include potential environmental impacts to New York State Parkland that may be involved in or near your project. Such impacts must be considered as part of the environmental review of the project pursuant to the State Environmental Quality Review Act (New York Environmental Conservation Law Article 8) and its implementing regulations (6 NYCRR Part 617).

Based upon this review, it is the opinion of OPRHP that no properties, including archaeological and/or historic resources, listed in or eligible for the New York State and National Registers of Historic Places will be impacted by this project.

If further correspondence is required regarding this project, please be sure to refer to the OPRHP Project Review (PR) number noted above.

Sincerely,

R. Daniel Mackay

Subject: List of threatened and endangered species that may occur in your proposed project location or may be affected by your proposed project

To Whom It May Concern:

The enclosed species list identifies threatened, endangered, proposed and candidate species, as well as proposed and final designated critical habitat, that may occur within the boundary of your proposed project and/or may be affected by your proposed project. The species list fulfills the requirements of the U.S. Fish and Wildlife Service (Service) under section 7(c) of the Endangered Species Act (Act) of 1973, as amended (16 U.S.C. 1531 *et seq.*).

New information based on updated surveys, changes in the abundance and distribution of species, changed habitat conditions, or other factors could change this list. Please feel free to contact us if you need more current information or assistance regarding the potential impacts to federally proposed, listed, and candidate species and federally designated and proposed critical habitat. Please note that under 50 CFR 402.12(e) of the regulations implementing section 7 of the Act, the accuracy of this species list should be verified after 90 days. This verification can be completed formally or informally as desired. The Service recommends that verification be completed by visiting the ECOS-IPaC website at regular intervals during project planning and implementation for updates to species lists and information. An updated list may be requested through the ECOS-IPaC system by completing the same process used to receive the enclosed list.

The purpose of the Act is to provide a means whereby threatened and endangered species and the ecosystems upon which they depend may be conserved. Under sections 7(a)(1) and 7(a)(2) of the Act and its implementing regulations (50 CFR 402 *et seq.*), Federal agencies are required to utilize their authorities to carry out programs for the conservation of threatened and endangered species and to determine whether projects may affect threatened and endangered species and/or designated critical habitat.

A Biological Assessment is required for construction projects (or other undertakings having similar physical impacts) that are major Federal actions significantly affecting the quality of the human environment as defined in the National Environmental Policy Act (42 U.S.C. 4332(2))

(c)). For projects other than major construction activities, the Service suggests that a biological evaluation similar to a Biological Assessment be prepared to determine whether the project may affect listed or proposed species and/or designated or proposed critical habitat. Recommended contents of a Biological Assessment are described at 50 CFR 402.12.

If a Federal agency determines, based on the Biological Assessment or biological evaluation, that listed species and/or designated critical habitat may be affected by the proposed project, the agency is required to consult with the Service pursuant to 50 CFR 402. In addition, the Service recommends that candidate species, proposed species and proposed critical habitat be addressed within the consultation. More information on the regulations and procedures for section 7 consultation, including the role of permit or license applicants, can be found in the "Endangered Species Consultation Handbook" at:

<http://www.fws.gov/endangered/esa-library/pdf/TOC-GLOS.PDF>

Migratory Birds: In addition to responsibilities to protect threatened and endangered species under the Endangered Species Act (ESA), there are additional responsibilities under the Migratory Bird Treaty Act (MBTA) and the Bald and Golden Eagle Protection Act (BGEPA) to protect native birds from project-related impacts. Any activity, intentional or unintentional, resulting in take of migratory birds, including eagles, is prohibited unless otherwise permitted by the U.S. Fish and Wildlife Service (50 C.F.R. Sec. 10.12 and 16 U.S.C. Sec. 668(a)). For more information regarding these Acts see <https://www.fws.gov/birds/policies-and-regulations.php>.

The MBTA has no provision for allowing take of migratory birds that may be unintentionally killed or injured by otherwise lawful activities. It is the responsibility of the project proponent to comply with these Acts by identifying potential impacts to migratory birds and eagles within applicable NEPA documents (when there is a federal nexus) or a Bird/Eagle Conservation Plan (when there is no federal nexus). Proponents should implement conservation measures to avoid or minimize the production of project-related stressors or minimize the exposure of birds and their resources to the project-related stressors. For more information on avian stressors and recommended conservation measures see <https://www.fws.gov/birds/bird-enthusiasts/threats-to-birds.php>.

In addition to MBTA and BGEPA, Executive Order 13186: *Responsibilities of Federal Agencies to Protect Migratory Birds*, obligates all Federal agencies that engage in or authorize activities that might affect migratory birds, to minimize those effects and encourage conservation measures that will improve bird populations. Executive Order 13186 provides for the protection of both migratory birds and migratory bird habitat. For information regarding the implementation of Executive Order 13186, please visit <https://www.fws.gov/birds/policies-and-regulations/executive-orders/e0-13186.php>.

We appreciate your concern for threatened and endangered species. The Service encourages Federal agencies to include conservation of threatened and endangered species into their project planning to further the purposes of the Act. **Please include the Consultation Code in the header of this letter with any request for consultation or correspondence about your project that you submit to our office.**
